

ADAMAX

Semax Analog

Cognitive Enhancement · Neuroprotection

What Is Adamax?

Adamax is a potent, long-lasting analog of Semax. It is researched for superior nootropic and neuroprotective effects compared to the parent compound.

How It Works

BDNF Upregulation Increases brain-derived neurotrophic factor for neuron growth and plasticity.	Neuroprotection Protects against oxidative stress and supports brain repair.	Cognitive Boost Enhances focus, memory, learning, and mental performance.

Areas of Research Interest

- Enhanced focus and mental clarity
- Improved memory and learning
- Neuroprotection and brain health
- Potential mood and stress support
- Longevity and cognitive performance

Common Research Approaches

Intranasal administration for direct brain delivery. Researched in nootropic and neuroprotective protocols.
