

GLOW STACK

GHK-Cu Focused Blend

Skin · Regeneration · Anti-Aging Glow

What Is the Glow Stack?

The Glow Stack typically centers on GHK-Cu (copper peptide) often combined with other regenerative peptides. It is researched for skin rejuvenation, collagen production, and overall youthful appearance from within.

How It Works

GHK-Cu Core	Synergistic Peptides	Systemic Benefits
Stimulates collagen, elastin, and tissue remodeling.	Enhances healing, anti-inflammation, and antioxidant effects.	Supports hair, skin, wound repair, and anti-aging pathways.

Areas of Research Interest

- Skin brightening and wrinkle reduction
- Collagen and elasticity boost
- Hair growth and thickness
- Accelerated wound healing
- Anti-inflammatory and antioxidant effects

Common Research Approaches

Topical or injectable. Often stacked with KLOW or other peptides for comprehensive regenerative and aesthetic benefits.
